

Office of the Sark Electricity Price Control Commissioner

## **Notice**

**Thursday, 31st May, 2018**

I have written a proposed price control order on my office's web-site [www.epc.sark.gg](http://www.epc.sark.gg). You may recall that, after a consultation process, I determined that the current basic tariff of 66p/kWh, and prices for larger customers, are not fair and reasonable. I am proposing that a fair and reasonable price for electricity on Sark for the year 1<sup>st</sup> July, 2018 to 30<sup>th</sup> June 2019 is 52 p/kWh. I also suggest that, subject to representations that SEL or others make, that a fair and reasonable price for the following year is 49 p/kWh on the basis of electricity demand and diesel fuel prices remain at current levels.

I would like to receive comments on these proposals from interested parties. The closing date for this consultation is 25<sup>th</sup> June, 2018.

Anthony White

Commissioner
